- christysandesh3@gmail.com
- <https://github.com/Sandeshch19>

### SKILLS

- Full Stack Data Analyst at Certisured.
- Proficient in **SQL**, with experience in querying, managing, and analysing relational databases.
- Proficient in **Power BI**, with experience in creating interactive and insightful data visualizations.
- Python for Machine Learning (**NumPy-Pandas**).
- Data Visualization (**Matplotlib, Seaborn**).

### EDUCATION

#### Bachelor of Computer Applications

East West College of Management  
(2019-2022)

Bangalore University  
CGPA: 7.2

#### PUC, Science (PCME)

Carmel PU College  
PUE Board, Karnataka  
Percentage: 64%

#### 10th Grade

Sri Adichunchanagiri Public School  
Percentage: 63%

### LANGUAGES

- ENGLISH
- KANNADA
- HINDI

### PROFILE

I'm Sandesh N Christy.

I'm interested in data analysis, Python programming, and data visualization. I'm currently learning and expanding my skills in various programming languages and technologies. Continuous learning is a core part of my journey, and I'm excited to see where it leads me.

I'm looking to collaborate on data analysis projects or open-source initiatives.

### INTERNSHIP:

DATA ANALYST

ANALOGICA SOFTWARE DEVELOPMENT PVT LTD [MAY 2023 - PRESENT]

### Key Achievements and Responsibilities:

- Assisting in data analysis tasks, including data cleaning, data visualization, and statistical analysis.
- Collaborating with the team to gather and analyse data from various sources to provide valuable insights.
- Contributing to the development of data-driven solutions to support business objectives

### PROJECTS

#### EDA

- Exploratory Data Analysis:** This project, an EDA for "Cetrisured," not only allowed me to explore the power of data but also showcased the incredible potential it holds.  
<https://github.com/Sandeshch19/Exploratory-Data-Analysis.git>

#### Power BI Dashboards

- HR Analytics Dashboard:** comprehensive overview of the organization's human resources metrics. This project aims to provide insights into employee demographics, satisfaction levels, departmental performance, and trends over time.  
<https://github.com/Sandeshch19/hr-analytics-dashboard.git>
- World Population Analysis Dashboard:** Created a Power BI dashboard to analyse global population trends, providing interactive visualizations and insights.  
<https://github.com/Sandeshch19/World-Population-Analysis.git>
- Fuel Production and Consumption Dashboard:** Designed a Power BI dashboard to track and analyse fuel production and consumption data, enabling data-driven decision-making.  
<https://github.com/Sandeshch19/Global-Fuel-Analysis.git>

#### SQL

- Banking Domain SQL Project (MySQL):** Developed and implemented a comprehensive banking system using MySQL command-line prompt. Designed the database schema, implemented data models, and executed SQL queries to manage customer accounts, transactions, and account balances effectively.

DATA ANALYST

---

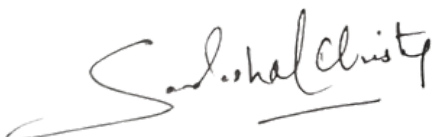

TO WHOM IT MAY CONCERN,

I am writing to express my strong interest in the Data Analyst position. Having reviewed your requirements and considering my experience and skills in data analysis, I am confident in my ability to make a meaningful contribution to your team.

As a Data Analyst with a strong foundation in Programming, statistics, and data visualization, I am excited about the prospect of joining and helping your organization leverage the power of data to drive informed decision-making. I believe my background and experience align well with the requirements of this role.

During my internship at Analogica Software Development Pvt Ltd, I had the opportunity to work on various data analysis tasks, including data cleaning, data visualization, and statistical analysis. I collaborated with a team to gather and analyze data from multiple sources, enabling us to provide valuable insights that supported our business objectives. In addition, I conducted a Python workshop for students, sharing my knowledge and fostering their learning in the field of data analysis.

SINCERELY,

SANDESH N CHRISTY
